

Lots and lots of light bulbs!

A free science workshop
ideal for children aged 4-7

Saturday 19 March

This workshop is ideal for age 4-7 and complements Early Years Foundation and Key Stage 1 science topics. Children can discuss with scientists where electricity comes from, use their muscle power to generate their own electricity and light, and colour in their own convection-powered dragon, worm or snake to take home! This workshop is part of the Cambridge Science Festival programme of events.

Three bookable slots:

10:30 am – 11:15 am

11:30 am – 12:15 pm

12:30 pm – 1:15 pm
